Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2834

Claims 1-6, 9, 10 and 12-17 are rejected under 35 USC 103 as unpatentable over Haertling, Schwartz or Samsel in view of Lange or Harnden for the specific reasons set forth in the previous office action.

Regarding applicants remarks it is noted that because Harnden teaches that a conductive enclosure may be provided that the obvious other alternative (insulating cover) should be ignored or negated. The same is true of "preferably completely covered", this clearly leaves the alternative (not completely covered) as a viable choice. Leaving the top and bottom surfaces uncovered would be obvious for several reasons; e.g. saving material, not lowering the resonant frequency of the piezo element. Obviously not fully encapsulating an element gives less protection from arc-over and environmental elements. However, it has long been held that the omission of an element with the consequent loss of its function is within the skill expected of the routineer. Whether or not protection is needed, and how much (what minimum) is necessary would be a self revealing problem, and consequently its solution would have been obvious to one of ordinary skill in the art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
